

Food Tastings

We can provide food tastings, the cost for this is £300 for up to 4 people.

The cost will cover the chef's time and service during your tasting along with our event manager.

A comment that we often hear is that other venues don't charge for tastings – all caterers cost food tastings onto their menus it is simply included in the overall charge.

As most clients do not require this service, we feel that it is only fair to charge those that do.
